

Free of charge content

BMW AOS offers you a wide range of technical information and applications related to the repair and maintenance of BMW, BMW Motorrad, MINI and Rolls-Royce vehicles. Registration, use of the electronic parts catalog and the digital service booklet are free of charge for you. Of course, we also offer free application support.

Offer for non-profit organizations/educational institutions

BMW offers special conditions to eligible educational institutions. Please select the appropriate user group when registering. We will then get back to you with further details.

Regional characteristics

Please note that due to regional characteristics, not every application may be available in every region. You can find out which applications are available in your region in the application overview.
